ACCOUNTS AND FINANCE—PUBLIC DEBT.

Simla, the 24th May 1918

No. 1445-F.—The Government of India, in the expectation that their officers of all grades will wish to give an liberal support to the Second Indian War Loan as they did to the first, have decided to afford them the same facilities for subscribing to it by monthly deductions from their pay as were granted last year, and have sanctioned, for this purpose, the scheme which is described in the memorandum attached to this notification. In all essentials this scheme is an exact replica of the Government scheme which was in operation in connexion with the first Indian War Loan, but the actual terms and date of issue of the Second Indian War Loan have necessitated a few alterations in detail. In particular it will be observed that the scheme does not provide for the purchase of stock through the Post Office. As interest on all War Bonds in the Second Indian War Loan is income-tax free, purchase through the Post Office does not secure any special income-tax concession.

(3) Instalments will continue to be deducted from the leave allowances of a subscriber who proceeds on leave, unless he is specially permitted to withdraw from the scheme under the following rule.

(4) (a) On furnishing special reasons which appear to the Head of his Office to be adequate, and on giving one month's notice, a subscriber may withdraw from the scheme before completing his instalments, and in that event he will receive back the amount he has already paid, but without interest.

(b) A subscriber ceasing to be employed in Government service before the payments are completed may be repaid without interest the amount which he has paid in; provided that if he retires on pension he may continue his payments by deductions from his pension.

(c) If a subscriber dies before his subscriptions have been completed, his estate will receive the amount thereof with interest thereon, at the rate of 5½ per cent.

(5) Only Inscribed Stock Certificates will be issued to subscribers under the scheme. But, on receiving their Certificates, subscribers can by applying to the Public Debt Office of issue exchange them for Promissory Notes or Bearer Bonds.

List F.

Goods of every description [other than (1) printed matter of all descriptions, and (2) personal effects accompanied by their owners], whether mentioned in the foregoing list or not, are prohibited from export to Norway, Sweden, Denmark and Holland in accordance with the Royal Proclamation of 29th September 1917.

In this connexion attention is drawn to the following reprint of a notice which appeared in the Public Press of the 4th October 1917.

The Director of the War Trade Department calls attention to the Royal Proclamation of September 29th, 1917, prohibiting the export, as from October 8th, 1917, of all goods (with the following exceptions) to Sweden, Denmark, Norway and Holland:

1. Printed matter of all descriptions (which will remain subject to the censorship regulations).
2. Personal effects accompanied by their owner.

It is not proposed immediately to refuse all consideration of applications for the grant of licences for the export of goods which have not hitherto been prohibited from export to Norway, Sweden, Denmark and Holland, but which now become prohibited under the Royal Proclamation in question. Exporters are warned, however, that the continuance of this arrangement must not be counted upon. The special arrangements in regard to the export of goods to Sweden, notified in the announcement issued by the War Trade Department on August 19th, 1916, are withdrawn as from October 8th, 1917, Sweden being thus placed on the same footing as the other Scandinavian countries and Holland. This order also applies to articles consigned by parcels post.

NOTICE TO MARINERS.

No. 855.

CHINA SEA—CHEFOO DISTRICT.

CHEFOO HARBOUR—INNER HARBOUR UNDER CONSTRUCTION.

SOUTHERN ENTRANCE OPENED; LIGHT ESTABLISHED; CAUTION. NORTHERN ENTRANCE—BUOYS MOVED.

Notice is hereby given that the Southern Entrance to the Inner Harbour (under construction) in Chefoo Harbour is now open to navigation. A white Light, occulting every 5 seconds, thus—

Light .. .. 0·3 second, | Eclipse .. .. 2·7 seconds,

is exhibited from an iron trestle structure situated on the southern end of the Breakwater (under construction). This Light, which is elevated 23 feet above sea level, marks the northern side of the Southern Entrance to the Inner Harbour. This entrance is primarily intended for the use of inward-bound vessels, but outward bound vessels may use it if it is seen that no inward-bound vessel is approaching.

CAUTION.

Vessels using this entrance must not approach the southern end of the Breakwater closer than 150 feet. When a *red* flag is exhibited on the southern end of the Breakwater, vessels passing must proceed at a dead slow speed.

Notice is also hereby given that the Buoys which mark the Northern Entrance to the Inner Harbour (under construction) have been moved as follows :—

The *black* Buoy (Contractor's Buoy No. 1), gas-lighted, moored off the northern end of the Breakwater (under construction) has been moved, and from the new position of the Buoy Tower Hill Lighthouse bears S. 1° W., distant 3,900 feet.

The *red* Buoy (Contractor's Buoy No 2), gas-lighted, moored off the eastern extremity of the Mole (under construction) has been moved, and from the new position of the Buoy Tower Hill Lighthouse bears S. 16° E., distant 3,040 feet.

NOTE.

The *red* Buoy (Contractor's Buoy No. 2) has been temporarily removed, its station being occupied by a Dredger at work. Vessels navigating the Northern Entrance must therefore pass to the eastward of the Dredger, which is not to be approached at a closer distance than 200 feet. When approaching the Dredger, vessels should proceed dead slow and continue doing so until finally past and clear. By night the Dredger will exhibit two powerful electric lights. So soon as the dredging has been completed, the Dredger will be removed and the *red* Buoy replaced at its station as advertised above.

Registrar.

Madura, 10th June 1918.

WANTED immediately for service in Mesopotamia :—

Accountants, Account clerks, Superior clerks (men suitable for Head Clerkships), Cashier, Typists, Surveyor-Draughtsmen and Surveyors.

2. Personnel will be required to serve for two years at least.

3. The staff will be employed on work similar to the routine of an open Canal division, the object being to obtain the maximum results from existing works and canals. Remodelling of channels and realignment in certain cases will be done. The cultivators will be educated in the economical use of water and regulation and distribution will be made on accepted principles. Some of the staff may be employed on construction, but the majority will be engaged on actual irrigation work such as they are accustomed to in India.

All classes will receive free rations on a most generous scale and special arrangements exist to meet the requirements of all castes and creeds.

Practically all classes are accommodated in houses and tents are not more used than in India.

The climate of Mesopotamia is generally speaking very much like that of the Punjab and the United Provinces, but the hot weather is neither so severe nor so long as that of Northern India, whilst the nights as a rule are refreshingly cool.

The medical facilities of Mesopotamia are exceptional and much in advance of anything in India except in the largest towns. In addition to the best expert medical treatment every comfort is provided free and the hospitals are equipped with every convenience.

Leave on a generous scale is admissible as the exigencies of the service admit and when granted not less than one full month in India is given with free passage to and from the home.

The cultivators are principally Arabs who will be supplied with water in the same manner as from canals in India.

Mesopotamia offers many amenities and owing to the number of Indians already there all classes will find congenial society. All essentials are provided free by Government with the exception of a servant and expenses are practically nil. Family allotments will be paid in India monthly if desired so any combination of full pay can be drawn in the field or accumulated at the credit of the individual according to choice.

4 Terms Admissible to Government servants are as shown below :—
